OUR CORE VALUES

- I. ACADEMIC EXCELLENCE** - We are committed to educating the individual learner in every aspect of school life through a model that is relational and based on Knowledge in the fear of God.

- II. TOTAL DEVELOPMENT** - We are committed to holistic education and training covering all areas of development including academics, sports, family, with special attention given to Girl child education.

- III. LEADERSHIP** - We are committed to developing tomorrow's leaders who are able to communicate a distinctly transparent and accountable world view and live it out daily with character, integrity and wisdom.

- IV. COMMUNITY** - We are committed to experiencing life together (staff, students/pupils and parents) as we partner to encourage, love and serve one another in community service for an effective and wholesome world impact, while also giving support to deserving orphans and support to widows.

OUR OVERVIEW

Africa International College (AIC) and Africa Community School (ACS) was established nearly two decades ago out of a strong passion to make a positive difference in the lives of growing children in Nigeria, Africa and indeed the world. Since then, the school has grown remarkably with local and international students soaring in their chosen endeavours.

Today AIC and ACS are sited as institutions offering first class all-round education from Early Years through Junior School to Senior School. We promote progressive education with scholarship opportunities for indigent children and staff children.

All this is done to give parents and pupils the desired continuity and stability, hence removing the inconveniences of having to change school periodically. Our Schools operate as co-educational institutions with a passion to make a positive difference in the lives of young people across the world.

We are focused on building every child that passes through our School in a unique

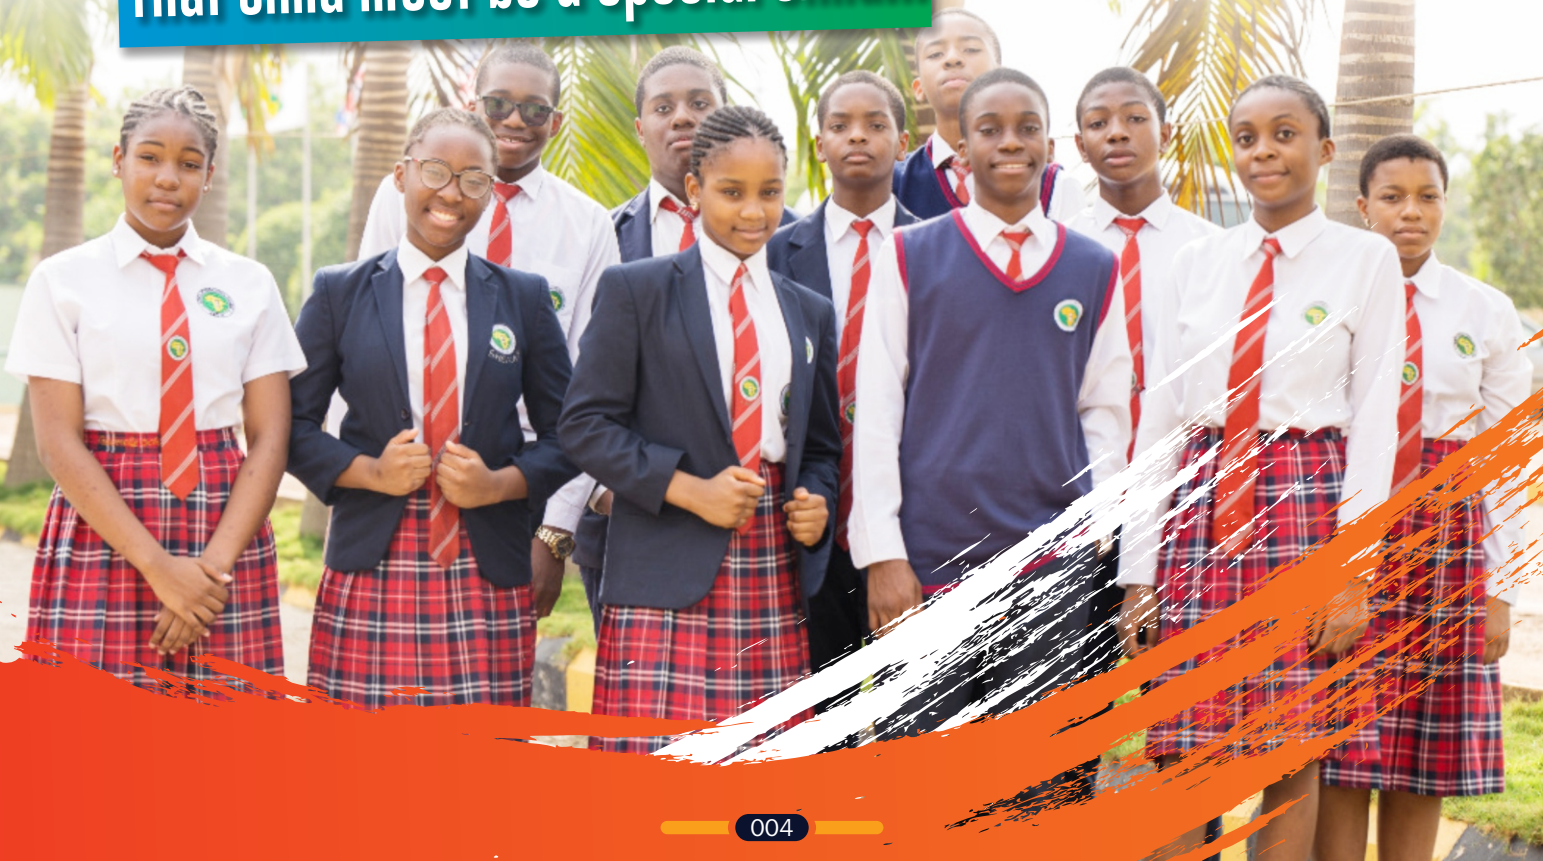

way, adopting a holistic approach to their upbringing under our Motto 'Knowledge in the fear of God'. It is also our firm conviction that the parents, the school and the children must work in harmony to achieve the best. Attainment of excellence in all segments is our goal and this must be achieved without compromise.

Our Schools, though faith-based, have no formal link to any religious denomination. We apply godly principles in the overall training and management of both students and staff.

Africa International College (AIC) and Africa Community School (ACS) have been self-supporting since inception and we embrace progressive partnerships from groups and individuals to raise the total child.

Our management and Board of Trustees consist of men and women of proven integrity who daily guide the overall direction and running of the Schools.

**Surely if your child is in AIC/ACS
That Child must be a special Child...**
